I have been using their service for many years. I never disappointed. I am remodeling my kitchen right now. Mr. Emre helped me with design and choosing right cabinets for my project. While everything is on backorder nowadays. They have Everything I need in stock!!! even though I choose their modern look gloss cabinets to make European style kitchen they still have the cabinets I need in stock. I can't explain how I am happy with their service! I definitely recommend them if you want high quality cabinets and good service!

We recently had our kitchen counters replaced. We found the team at ERA to be friendly, knowledgeable, and accessible—even after the job was completed and we had some minor changes we wanted to make. Selection was what you'd find elsewhere, and the prices also really competitive. We had a really positive experience.

I was looking cabinet store to change my cabinets and my friend recommend Cabinet era. They came to my home and asked my budget and what I want. They did what I exactly want within my budget. They worked professionally and the most important one is they are punctual. They take the cabinets what time they promise. Highly recommend

I have nothing but wonderful things to say about . They have a very good choice of products, along with outstanding staff to assist with the myriad choices that must be made when remodeling. Most importantly, all the staff are so kind and knowledgeable, and offer outstanding customer service. I highly recommend them.

Friendly and very helpful staff. Took the time to listen about my purchasing needs and quality I was seeking. They asked me about my budget for the purchase and then proceeded to provide several options and recommendations that met my needs and was within my budget. Now that I know about these folks, Cabinet Era will be the first place I go when I next need a cabinet(s).
